

UNOX Movie Database — SQL DML Lab

LEVEL 1: INSERT STATEMENTS

Scenario:

The UNOX management is adding new movies, users, and related records into the system. You are required to populate key tables with initial data and ensure data consistency.

Problem Statement 1: Add a new movie

A new blockbuster movie “Avatar 3” has been released. Add it to the Movie table.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number

```
76  -- LEVEL 1 - QUESTION 1
77
78  • INSERT INTO Movie
79  VALUES
80  (101, 'Avatar 3', 'Sci-Fi', 'Now Showing');
81
```

RA2311003011820

✓	40	10:45:47	INSERT INTO Movie VALUES (101, 'Avatar 3', 'Sci-Fi', 'Now Showing')	1 row(s) affected	0.04 / sec
✓	41	10:46:04	INSERT INTO Screen VALUES (11, 'IMAX Silver', 'Premium', 120)	1 row(s) affected	0.016 sec
✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec

Problem Statement 2:

Add a new screen with 120 seats

A new screen named “IMAX Silver” of type “Premium” is being added with a capacity of 120 seats.

Problem Statement 3:

```
-- LEVEL 1 - QUESTION 2
-- Add Screen IMAX Silver
```

```
INSERT INTO Screen
VALUES
(11, 'IMAX Silver', 'Premium', 120);
```

```
INSERT INTO Users
VALUES
(201, 'Priya Nair', '9876543210');
```

```
INSERT INTO Booking
VALUES
(301, 201, 12);
```

RA2311003011820

✓	40	10:45:47	INSERT INTO Movie VALUES (101, 'Avatar 3', 'Sci-Fi', 'Now Showing')	1 row(s) affected	0.04 / sec
✓	41	10:46:04	INSERT INTO Screen VALUES (11, 'IMAX Silver', 'Premium', 120)	1 row(s) affected	0.016 sec
✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec

Problem Statement 3:

Insert a user, a booking, and a payment transaction together

A new user “Priya Nair” books a ticket for “Avatar 3” and pays using “Bill Desk Gateway.” Insert all necessary data ensuring referential consistency.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

LEVEL 2: UPDATE STATEMENTS

Scenario:

Data updates are required due to user profile changes, schedule adjustments, and reward corrections.

Problem Statement 1: Update a user's phone number

User "Priya Nair" has changed her phone number. Update it in the User table.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

-- LEVEL 2 - QUESTION 1

```
UPDATE Users
SET Phone = '9988776655'
WHERE UserID = 201;
```

RA2311003011820

✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec
✗	44	10:46:13	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.031 sec
✗	45	10:46:24	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✗	46	10:46:51	UPDATE Movie SET Status = 'Archived' WHERE Title = 'Avatar 3'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	47	10:47:47	UPDATE Users SET Phone = '9988776655' WHERE UserID = 201	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.016 sec
✗	48	10:47:59	CREATE DATABASE RetailStoreDB	Error Code: 1007. Can't create database 'retailstoredb'; database exists	0.016 sec
✓	49	10:48:11	UPDATE Movie SET Status = 'Archived' WHERE MovieID = 101	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.000 sec

Problem Statement 2:

Update Movie Status

The movie “Avatar 3” is no longer showing. Update its status to “Archived.”

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

```
-- LEVEL 2 - QUESTION 2
-- Archive Avatar 3
```

```
UPDATE Movie
SET Status = 'Archived'
WHERE MovieID = 101;
```

RA2311003011820

✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec
✗	44	10:46:13	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.031 sec
✗	45	10:46:24	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✗	46	10:46:51	UPDATE Movie SET Status = 'Archived' WHERE Title = 'Avatar 3'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	47	10:47:47	UPDATE Users SET Phone = '9988776655' WHERE UserID = 201	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.016 sec
✗	48	10:47:59	CREATE DATABASE RetailStoreDB	Error Code: 1007. Can't create database 'retailstoredb'; database exists	0.016 sec
✓	49	10:48:11	UPDATE Movie SET Status = 'Archived' WHERE MovieID = 101	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.000 sec

Problem Statement 3:

Increase reward points for users who spent more than ₹1000:

To reward loyal customers, increase their Membership.current_points by 100 for all users who have transactions exceeding ₹1000.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

LEVEL 3: DELETE STATEMENTS

Scenario:

Old or invalid records need to be removed from the system to maintain data accuracy and optimize performance.

Problem Statement 1: Delete a cancelled booking

A user cancelled their booking for show_id= 12. Delete that record from the Booking table.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

```
111      -- LEVEL 3 - QUESTION 1
112      -- Delete Cancelled Booking
113
114 •    DELETE FROM Booking
115      WHERE BookingID = 301;
116
```

RA2311003011820

✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec
✗	44	10:46:13	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.031 sec
✗	45	10:46:24	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✗	46	10:46:51	UPDATE Movie SET Status = 'Archived' WHERE Title = 'Avatar 3'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	47	10:47:47	UPDATE Users SET Phone = '9988776655' WHERE UserID = 201	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.016 sec
✗	48	10:47:59	CREATE DATABASE RetailStoreDB	Error Code: 1007. Can't create database 'retailstoredb'; database exists	0.016 sec
✓	49	10:48:11	UPDATE Movie SET Status = 'Archived' WHERE MovieID = 101	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.000 sec
✗	50	10:48:20	DELETE FROM Booking WHERE ShowID = 12	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	51	10:49:34	DELETE FROM Booking WHERE BookingID = 301	1 row(s) affected	0.000 sec
✓	52	10:49:40	DELETE FROM Screen WHERE ScreenID = 11	1 row(s) affected	0.016 sec

Problem Statement 2:

Delete inactive screen

The screen named “IMAX Silver” is no longer supported. Delete it from the screen table.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)

```

110
117  -- LEVEL 3 - QUESTION 2
118  -- Delete IMAX Silver Screen
119
120 •  DELETE FROM Screen
121      WHERE ScreenID = 11;
122

```

RA2311003011820

✓	42	10:46:04	INSERT INTO Users VALUES (201, 'Priya Nair', '9876543210')	1 row(s) affected	0.000 sec
✓	43	10:46:04	INSERT INTO Booking VALUES (301, 201, 12)	1 row(s) affected	0.016 sec
✗	44	10:46:13	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.031 sec
✗	45	10:46:24	UPDATE Users SET Phone = '9988776655' WHERE UserName = 'Priya Nair'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✗	46	10:46:51	UPDATE Movie SET Status = 'Archived' WHERE Title = 'Avatar 3'	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	47	10:47:47	UPDATE Users SET Phone = '9988776655' WHERE UserID = 201	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.016 sec
✗	48	10:47:59	CREATE DATABASE RetailStoreDB	Error Code: 1007. Can't create database 'retailstoredb'; database exists	0.016 sec
✓	49	10:48:11	UPDATE Movie SET Status = 'Archived' WHERE MovieID = 101	1 row(s) affected Rows matched: 1 Changed: 1 Warnings: 0	0.000 sec
✗	50	10:48:20	DELETE FROM Booking WHERE ShowID = 12	Error Code: 1175. You are using safe update mode and you tried to update a table without a WHERE that uses a KEY ...	0.000 sec
✓	51	10:49:34	DELETE FROM Booking WHERE BookingID = 301	1 row(s) affected	0.000 sec
✓	52	10:49:40	DELETE FROM Screen WHERE ScreenID = 11	1 row(s) affected	0.016 sec

Problem Statement 3:

Delete all movies and related data that are archived

Management has decided to completely remove archived movies and all their dependent data such as shows and reviews.

Solution: (Paste Screenshot from your SQL Workbench with your RA Number)
